

Tenant Satisfaction Measures

There are 22 TSMs in total, split into two areas:

- 10 performance measures: these were collected through key performance data up to 31 March 2024.
- 12 customer perception survey measures: these were collected through contacting customers directly.

These are the areas that they cover:

Methodology

To complete the Tenant Satisfaction Measures survey we used the services of M.E.L Research to collect, generate and validate the perception measures.

Data collection took place in January and early February 2024. General needs, sheltered and supported tenants were all given the opportunity to share their views. These tenures are all classed as Low Cost Rental Accommodation and therefore are in scope for the Tenant Satisfaction Measures.

A mixed method (telephone and online) approach was used. Initially, tenants were contacted by telephone to take part. In the second week of fieldwork those yet to take part, for whom an email address was known, were sent an email providing details of how to complete the survey online. This was followed by 2 reminders emails to maximise participation.

All survey respondents were offered the opportunity to be part of a prize draw for three £100 vouchers.

In total we heard from 337 tenants, from a population of 1473. This provides data with a maximum margin of error of +/-4.7%. This is within the +/-5% margin of error required by the regulator for your stock size.

192 of the surveys were completed by telephone (57%) and 146 (43%) were completed online.

Data weighting and reporting

While the profile of the telephone interviews was controlled to ensure that this was representative, the overall (telephone and online) data set has been weighted, by these variables:

- Tenure type
- Property type
- Local authority
- Ethnicity

This weighting ensures that the results reported are from a fully representative sample of Tuntum Housing tenants. On the next slide the table shows an illustration of the summary of representativeness.

The TSM technical guidance prescribes which questions have 'don't know/ not applicable' options and which do not. In line with this guidance, where 'don't know' responses were possible, these responses have been excluded from the sample base/scoring in this report.

Data weighting: Summary of Representativeness

	Relevant tenant population (% total)	Total survey responses (% total)
Tenure type		
General Needs	89%	89%
General Needs - Sheltered	6%	6%
Specialist - Supported	5%	5%
Property type		
Bungalow	8%	8%
Flat	27%	27%
House	60%	60%
Other	4%	4%
Local authority		
Nottingham	65%	65%
Other LA	35%	35%
Ethnicity		
Asian	8%	8%
Black	18%	18%
Mixed	6%	6%
White	56%	56%
Other	3%	3%
Refused / Unknown	10%	10%

Overall satisfaction

TP01: Overall Satisfaction

68% of tenants are satisfied overall with the services we provide. While this is a 4 percentage point fall year on year, this is just inside the possible margin of error for the survey data.

Effective handling of complaints

TP09: Satisfaction with landlord dealing with complaints handling

39% of respondents said that they have made a formal complaint in the last 12 months. Of these, less than half (46%) express satisfaction with our approach to handling their complaints.

46%

44% in 2023

Base: 337 / 130

Percentages are rounded

Effective handling of complaints

At Tuntum we learn from our complaints to improve the service we offer.

Stage 1 Complaints:

33.4 CH01: Number of stage one complaints received per 1,000 homes.

96% CH02: Proportion of stage one complaints responded to within the Housing Ombudsman's Complaint Handling Code timescales.

Stage 2 Complaints:

6.0 CH01: Number of stage two complaints received per 1,000 homes.

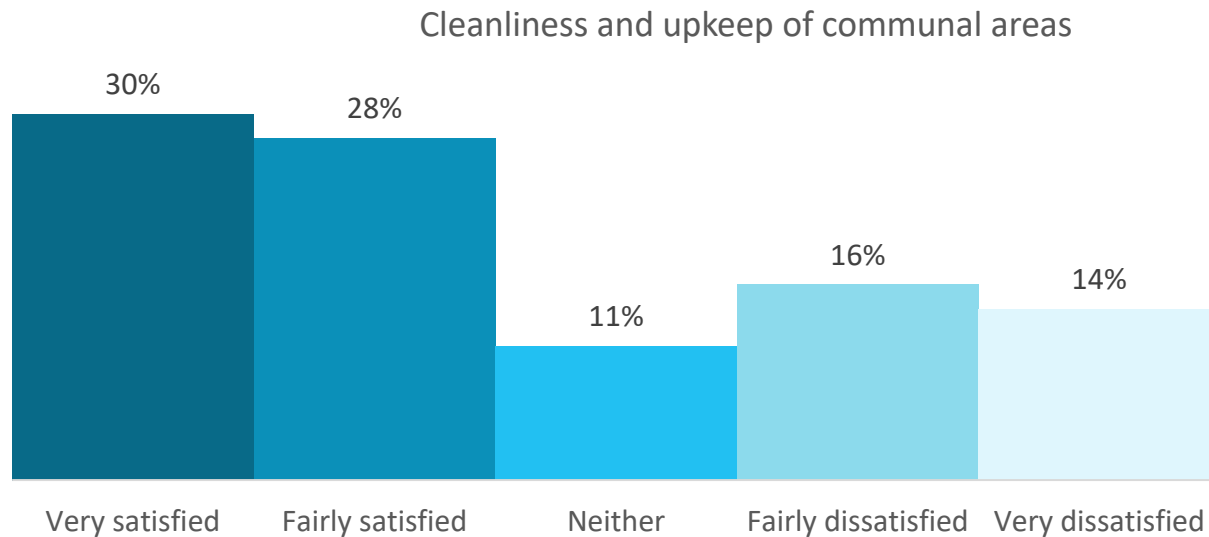

100% CH02: Proportion of stage two complaints responded to within the Housing Ombudsman's Complaint Handling Code timescales.

Responsible neighbourhood management

TP10: Satisfaction with maintenance and upkeep of communal areas.

41% of respondents said that they live in a property with communal areas that we are responsible for maintaining. Of those who did, almost six in ten (58%) express satisfaction that the communal areas are clean and well maintained.

Percentages are rounded

63% in 2023

Base: 338 / 135

Responsible neighbourhood management

TP11: Satisfaction with landlord making a positive contribution to the neighbourhood

Half of tenants (50%) say that they are satisfied that we make a positive contribution to their neighbourhood.

Percentages are rounded

50%

54% in 2023

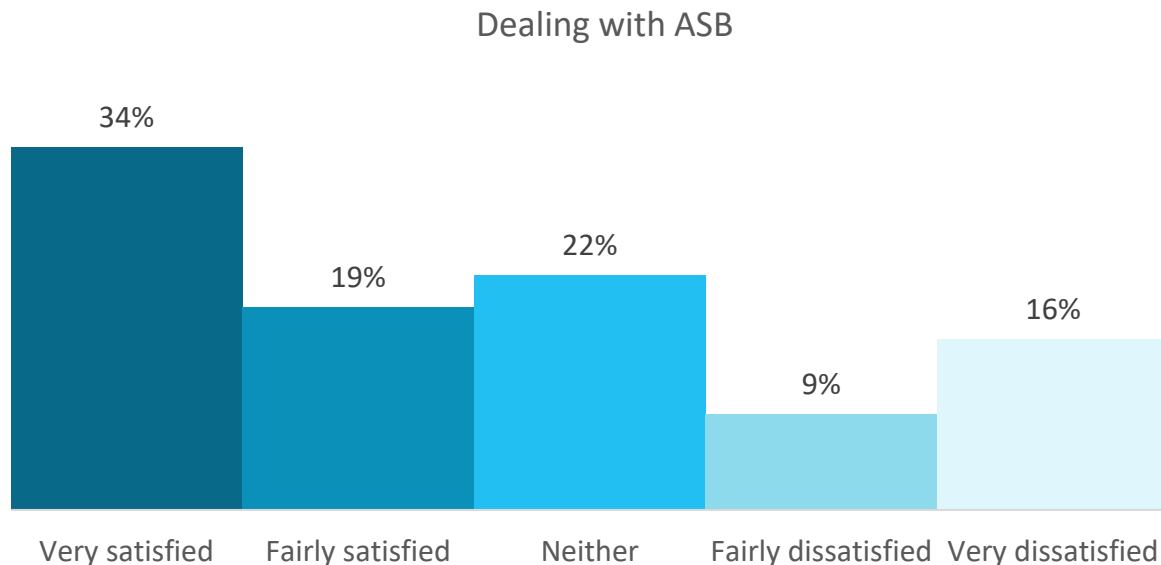

Base: 238

Responsible neighbourhood management

TP12: Satisfaction with landlord dealing with anti-social behaviour

Satisfaction with our approach to dealing with anti-social behaviour has fallen by 9 percentage points year on year to 53%.

Percentages are rounded

Responsible neighbourhood management

We work with our tenants to help to manage issues when they arise.

- 36.0** **NM01: Number of anti-social behaviour cases, opened per 1,000 homes.**
- 0.7** **NM01: Number of anti-social behaviour cases that involve hate incidents opened per 1,000 homes**

Areas for improvement

When tenants were asked to state in their own words what one thing we could do to improve, the responses given most commonly related to repairs and maintenance issues or general customer service.
